Patient Information

Treating Doctor: Sxyzxn Gxyzxyzxz

Patient Name: Axya Mxyn

Birth Date: 10-28-1981

Age: 44 Years

Gender: Female

Chief Complaints: Lingual inclination of #8 and #9

Comprehensive Diagnostic Findings

Adjunctive Treatments

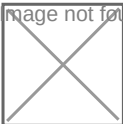

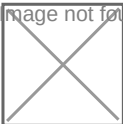

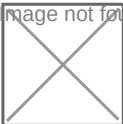

Other Relevant Findings:

Planned Restorative Work: None at this time

Additional Comments: Above teeth have crowns, # 7 has a large intra radicular restoration (see Xray), prefer not to move. Patient had orthodontic treatment before. She was not wearing the retainers and teeth #8 and #9 tilted to the lingual. At this time, she wants to have the teeth back to the right position and improve alignment.
